

# AS9100: Quality Management System for the Aerospace Industry

## YOU ARE WELCOME

In Aerospace Industry, 'Safety' is a must to hold; 'Quality' is a key requirement to meet; and 'Failure' is never an option to opt for.

Recently, Ir. Dr. TONG helped Bridgestone to obtain the AS9100 certification - the widely adopted and standardized quality management system for Aerospace Industry. In the seminar, Ir. Dr. TONG will introduce AS9100 and share his insight to fulfil AS9100 requirements.
