

香港品質學會

Workshop
on
Body of Knowledge for Quality Engineer

3 September – 5 November 2011
(8 Saturday afternoons)

Organized by
Hong Kong Society for Quality

Web site: www.hksq.org

Email: info@hksq.org

The Body of Knowledge for Quality Engineer provides useful guidance for candidates preparing to take ASQ's (American Society for Quality) Certified Quality Engineer (CQE) Examination

Each participant will receive a copy of the CQE Primer (870+ pages) published by Quality Council of Indiana, USA

Supported by:
TQM Consultants Co Ltd
www.tqm.com.hk

Objectives of the Workshop

This Workshop is designed to review the basic knowledge and relevant techniques listed in the new Body of Knowledge (BOK) of ASQ's (American Society for Quality) Certified Quality Engineer (CQE) Program*.

On completion of this Workshop, participants will be more familiar with the knowledge and tools that are expected to be put to good use by an ASQ Certified Quality Engineer.

Theories will be brief. The emphasis of this Workshop is to highlight key areas of the knowledge domain and to develop effective test taking skills.

Outline of the Workshop

1. Management and Leadership

- Quality Philosophies and Foundations
- Professional Conduct
- The Quality Management System
- Leadership Principles and Techniques
- Customer Satisfaction
- Supplier Relationship

2. The Quality System

- Elements of the Quality System
- Documentation
- Quality Standards
- Quality Audits
- Cost of Quality

3. Product and Process Design

- Design Inputs and Review
- Design Verification
- Reliability and Maintainability

4. Product and Process Control

- Material Control
- Acceptance Sampling
- Measurement and Test

5. Continuous Improvement
