

Open Forum

Risks, Cybersecurity, and New Technology Adoption in Tourism and Servicing Industry

Date : 7th April , 2018 (Sat)

13:10 to 18:15

Language : English

Venue : V322, Innovation Tower, The Hong Kong Polytechnic University

New business models have changed the business landscape in the tourism and servicing industries. Many companies try to be more on-line, shifting to cost effective cloud solutions, performing big data analytics, and even looking into the emerging areas of Fintech and blockchain technologies. Risks does exist on every technology adoption such that cybersecurity has now become a prime focus. This open forum co-organised by the Department of Computing (COMP) and School of Hotel and Tourism Management (SHTM), Hong Kong Polytechnic University, intends to seek insights from local industrial leaders, academics, professionals, law enforcement, as well as public audiences for their attention on such a critical subject.

Audiences : Business Executives, IT Management, Law Enforcement, Government Officials, Academia, Students

Enquiry : Dr. Walter S. L. Fung (walter.fung@polyu.edu.hk)

Registration : <https://www.polyu.edu.hk/mysurvey/index.php/164994?lang=en>
