

## Seminar on “Safety Management and Risk Assessment in Railway Operations”

Friday, 24 February 2012, 2:30pm-5:50pm

### Organized by

- Hong Kong Society for Quality (HKSQ)

### Co-organized by

- American Society for Quality (ASQ) - Hong Kong
- Department of Systems Engineering and Engineering Management (SEEM),  
City University of Hong Kong
- Institute of Railway Signal Engineers (IRSE), Hong Kong Section

### *Description*

Safety has always and continues to be the first and foremost pre-requisite for any railway system as they are an invaluable mode of transport and carry large numbers of impact. With the advent of new technologies, the international railway community recognises the need for continuous improvements to enhance safeguards for passengers. With many countries looking to develop high-speed railways to move growing populations faster over long distances, this seminar aims to provide participants with an updated view on contemporary policies and practices of safety management and risk assessment in railways operations.

### *Topics and Speakers*

- "Safety in the Railway Industry" by Mr. KW Pang, IRSE
- "Risk assessments - how could they be made better" by Mr. Simon Lee Kun Pui, IRSE
- "IRIS (International Railway Industry Standard) Certification" by Dr. Thomas Kwok, Bureau Veritas Certification
- "Safety Management System for MTR Railway Business" by Mr. Joseph Ng, MTR Corporation

*Seminar  
Details*
